Flexlift Products

Flexlift low profile lift tables

The Flexlift low profile lift table was developed in 1982. Since then 100,000 low profile Flexlifts have been manufactured. These tables are used in all industrial branches. Their main application is ergonomic workplace design.

Flexlift Material Handling

In the framework of orders enclosing lift tables, Flexlift supplies also conveyors, stacking devices and other material handling equipment.
Flexlift Products

Flexlift Belt Lift Tables

According to requirements of the automotive companies, in 2000 Flexlift came out with a new generation of belt driven lift tables. Since then more than 6,500 of these units have been sold.

Flexlift Spindle lift tables

Flexlift is manufacturing spindle drive lift tables since 1992. More than 5,500 units have been produced. These were supplied predominantly to the automobile industry.
